PS3500X

PS3500PRO

PS3500X/PS3500PRO

MAIN FEATURES

- ★ Equipped with advanced LiFePO4 cells for maximum safety, stability, and 3000+ deep cycles.
- ★ Supports both solar and grid charging, ensuring uninterrupted power supply anytime, anywhere.
- ★ All-in-one integrated design with inverter, BMS, and MPPT for easy installation and seamless operation.
- ★ Smart BMS ensures multi-level protection including overcharge, short circuit, temperature, and voltage control.
- ★ Modular design allows flexible capacity expansion to meet different residential and commercial needs.
- ★ Compact size with high power density, ideal for both indoor and outdoor use.
- ★ Certified to international safety standards, ensuring long-term peace of mind in every environment.
- ★ Compatible with Tesla charging powers EVs for outdoor/road-trip emergency range boosts.

MODEL	PS3500X	PS3500PRO
Rated Power	3500W	
Peak Power	7000W	
Battery Capacity	2662Wh	5120Wh
Battery Type	LFP	
Battery Voltage	16S/51.2V	
Cell Spec	3.2V/52Ah	3.2V/100Ah
Charging (V/A)	57.6V/15A	57.6V/30A
Charge Time	3.5h	3.3h
Battery Mounting Method	Built-in battery	
Protection	Overload/Short Circuit/Leakage	
IP Rating	IP54	

Excellent Features

Long Cycle Life	Grade-A LiFePO4 Cells	Dual Charging Options	Smart BMS Protection	Real-Time Monitoring
Compact & Portable	Expandable Capacity	Solar Compatible	Pure Sine Wave Output	Plug-and-Play Installation
App Remote Control	Fast Charging Technology	Wide Application Scenarios	IP65 Waterproof	Quiet Operation
